

# Welcome and Aims

**Chris Dore**

# Stakeholder Input and Aims

---

- **Current Inventory Programme**
  - There are a number of development tasks included in the current programme
  - Contract runs until end Sept 2008
  - Discussions on future specification just starting
- **Stakeholder Input**
  - To review current needs, and highlight any shortcomings
  - To outline future demands
  - ... and ultimately provide a steer going forward
- **Overarching Aim of Today**
  - To better understand your current and future needs
  - To explore how the programme can improve delivery to meet these needs

# Today's Programme

---

- **Current and Long-term Policy Commitments**
  - AEQ and CESA
- **The Emissions Inventory Programme**
  - The NAEI and the GHGI
- **LUNCH (12:00 – 13:00)**
- **Inventory Development at Different Scales**
  - Emission Inventories for the Devolved Administrations
  - Comparison of the NAEI with the LAEI
  - LA CO<sub>2</sub> inventory and indicators
